

# Protective Care Group

Shaping lives through specialist care

## Covid-19 Response

We want to ensure all of our employees and customers stay as safe as possible during the Covid 19 pandemic. In order to achieve this we have introduced a number of procedures that are regularly reviewed and adapted as the pandemic situation changes.

Part of these procedures involve ensuring our staff are fully trained and protected when working with our customers so everyone can remain as safe as possible.

We are fully supporting our staff throughout the outbreak and are encouraging regular testing. Our staff receive infection control training and have access to PPE equipment at all times.

Everybody's care needs are different and we tailor each care package to fit the individual. Please get in touch for chat if you think we might be able to help, we are happy to talk through your situation and begin to put together a care package.
